The investment is implemented within the framework of the National Recovery and Resilience Plan ‘Greece 2.0’, funded by the European Union – NextGenerationEU.

The project, with code PSTA 5164845204 and a total budget of €2,410,302.60, aims at the upgrade and expansion of the capacity of both the vineyards and the winery.

It involves environmentally friendly investments. It includes the technological upgrading of production processes, the expansion of infrastructure, the construction of new building and technical facilities, as well as the procurement and installation of state-of-the-art mechanical equipment.

At the same time, the project provides for the establishment of new vineyards and the implementation of monitoring and certification systems for the production process, enhancing sustainability, product quality, and the competitiveness of the enterprise.
